*	Due to a misunderstanding Angela Carpenter was sent in the wrong direction and as a result completed 14.2 miles. She was in 37th place at the time and we estimate her finish time would have been 1.45.30. We are very sorry for this mistake and we will review our instructions to marshals.”				
*	We found enough marshals to put one on every turn this year, but the course was still vandalised on the long section around the 8 mile marker. Most runners carried on along the same trail past the point where the red-lining was erased and picked up the yellow arrows again after a few yards, but Tony Brownlee and Alastair Green turned left off the trail and toured Holmbury St Mary for 7 or 8 minutes. We will endeavour to marshal this point as well next year.				
	Three people were seen running without a number. Please don't do this. There is limited parking at the school, and extra runners just add to the congestion up the first hill. If we could accept more entries we would, because all the proceeds go to charity.
